Project Initialization and Planning Phase

Date	3 October 2026
Team ID	SWTID-2026-5338
Project Name	ComicCraft - AI Comic Story Creator using Gemini Models
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	An aspiring storyteller with great story ideas but no drawing skills.	Turn my story idea into a complete, illustrated comic.	Creating characters, dialogue and panel art by hand needs artistic skill.	Traditional comic-making is slow and demands design and drawing expertise.	Frustrated and discouraged.
PS-2	A teacher or content creator preparing engaging lessons.	Create illustrated comic stories to explain topics to my audience.	Existing tools are complex and I have very little time.	Writing the script, designing panels and sourcing images are done in separate tools.	Overwhelmed and short on time.
PS-3	A beginner or student who wants to share a story quickly.	Generate a story with images and dialogue from just a simple topic.	I cannot find one easy tool that does story, images and layout together.	Most tools need manual work for every panel and offer no AI story support.	Confident and excited when the AI creates the comic for me.
