Code-Layout, Readability and Reusability

Date	3 October 2026
Team ID	SWTID-2026-5338
Project Name	ComicCraft – AI Comic Story Creator using Gemini Models
Maximum Marks	5 Marks

Code-Layout, Readability and Reusability:

This document evaluates the quality of the codebase in terms of its structure, readability, and reusability. Well-organized code with proper naming conventions, comments, and modular design ensures that the project is maintainable and can be extended or reused in future development.

Code Layout Checklist:

S.No	Code Quality Parameter	Description	Followed (Yes / No / Partial)	Remarks
1	**Consistent Indentation**	Uniform spacing and indentation are used throughout the Python code.	**Yes**	Consistent formatting
2	**Proper File Structure**	Files and folders are logically organized into app, templates and static directories.	**Yes**	Well organized
3	**Meaningful Variable Names**	Variables reflect their purpose clearly.	**Yes**	Clear variable names
4	**Function / Method Names**	Functions are descriptively named based on their purpose.	**Yes**	Descriptive names
5	**Code Comments**	Comments are used where required to explain important code sections.	**Partial**	Basic comments used
6	**Modular Design**	Code is divided into reusable modules such as routes, Gemini, image generation and exporters.	**Yes**	Modular structure
7	**No Redundant Code**	Duplicate and unnecessary code is minimized.	**Yes**	Minimal duplication
8	**Error Handling**	Errors and exceptions are handled to avoid application failure.	**Yes**	Error handling included

Reusable Components / Modules:

S.No	Component / Module Name	Language / Technology	Where Reused	Reusability Level
1	**routes.py**	Python / FastAPI	Story generation, comic generation and API routes	**High**
2	**gemini_flash.py**	Python / Gemini API	AI story and content generation	**High**
3	**image_generator.py**	Python / Hugging Face	AI image generation for comic panels	**High**
4	**exporters.py**	Python / FPDF	PDF generation and export	**High**
5	**layout_builder.py**	Python	Comic panel layout and presentation	**Medium**

Overall Code Quality Assessment

Aspect	Rating (1-5)	Comments
Code Layout & Structure	**5**	Well-organized project structure
Readability	**4**	Clear and understandable code
Reusability	**5**	Modular components can be reused
Documentation / Comments	**4**	Basic documentation and comments provided
Overall Score	**4.5 / 5**	Good code quality and modular design
