Demonstration of Proposed Features

Date	3 October 2026
Team ID	SWTID-2026-5338
Project Name	ComicCraft-AI Comic Creator using Gemini Models
Maximum Marks	1 Mark

Demonstration of Proposed Features:

This document captures the features proposed during the planning phase of the **ComicCraft – AI Comic Story Creator using Gemini Models** project and tracks whether each feature was successfully implemented and demonstrated. It provides evidence that the planned features were developed and tested successfully.

S.No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	User Input	Allows users to enter story prompt, main character name, setting, story tone and art style.	Implemented	Yes	User input page tested successfully.
2	AI Story Generation	Generates a structured comic story based on user inputs using Gemini AI.	Implemented	Yes	Story generation tested successfully.
3	Five-Panel Comic Creation	Converts the generated story into five individual comic panels.	Implemented	Yes	Five comic panels generated successfully.
4	AI Image Generation	Generates AI illustrations for each comic panel using Hugging Face AI image generation.	Implemented	Yes	Images generated successfully for the comic panels.
5	Comic Preview	Displays the generated comic panels with scene, action, narration and dialogue in the browser.	Implemented	Yes	Generated comic preview tested successfully.
6	PDF Export	Creates and allows the user to download the generated comic as a PDF file.	Implemented	Yes	PDF generation and download tested successfully.

Feature Implementation Summary:

Total Features Proposed	6
Total Features Implemented	6

Total Features Demonstrated	6
Overall Implementation Rate (%)	100%

Short conclusion:

All the proposed core features of ComicCraft were successfully implemented and demonstrated. The application supports user input, AI story generation, five-panel comic creation, AI image generation, comic preview and PDF export.
